HOTELIERS - ARE YOU READY FOR THE NEW TARIFF IMPACT? 📉📈

New tariffs on imports from China, Mexico, and Canada are here – and they're set to drive up costs and disrupt supply chains for hotels. Here's what you need to know:

- ✓ Higher prices on imported food, furniture, linens, and electronics will squeeze margins.
- ✓ Supply chain hiccups are coming – hotels will scramble for new suppliers and may face shortages.
- ✓ Mitigation strategies can help: sourcing locally, securing bulk deals, and locking in stable supplier contracts.
- ✓ AI-powered procurement is a game changer – platforms like Lilo help hotels forecast demand, automatically vet vendors, and cut costs (saving 7–9% on supplies).

► The bottom line? Hotels that diversify supply chains and leverage smart tech will stay resilient, keep costs under control, and continue delivering top-tier guest experiences.
